Statement of Authenticity

I declare that this thesis is my own writing, and it is true and correct that I did not take any scholarly ideas or work from others dishonestly. That all the cited works were quoted in accordance with the ethical code of academic writing.

I also declare that I agree to submit my thesis entitled The Implementation of Whole Brain Teaching Method for Student Speaking Skill Improvement to Widya Mandala Catholic University Library and fully understand that it will be made public via the internet and other means of online media.

ACKNOWLEDGMENTS

All praise and thanks be only for Allah SWT, the Almighty God that gives His blessing and His help, so the writer can finish his thesis. In the process of his study, he received support, contribution, and assistance from many people. Thus, there are honorable people that are important to the writer to whom he can only express gratitudes to:

1. Prof. Dr. J.S. Ami Soewandi, the Director of Graduate School of Widya Mandala University.
2. Dr. Hendra Tedjasuksmana, M. Hum, the Head of English Education Department for giving the writer permission to write the thesis.
3. Prof. Anita Lie, Ed. D, the writer’s advisor for her patience, guidance, and suggestions.
4. Prof. Dr. Wuri Soedjatmiko and Dr. Ruruh Mindari, who give some suggestions and corrections to my thesis in the proposal seminar.
5. Drs. Djoko Pratmodjo Yudhi Utomo, M.M., the principal of SMKN 2 Surabaya for facilitating the writer in collecting the data.
6. The students of eleventh grade majoring in Electronic Engineering for the cooperation during the research.
7. My parents for giving me life in the first place, for educating me, for giving unconditional support and encouragement to pursue my interests; and my wife Yuni Utari and sons for their patience, understanding, love and care.

The writer realizes that this thesis still has many weaknesses and shortcomings. Therefore, the writer accepts gratefully every suggestion, criticism and comment to make this thesis better. Hopefully, this thesis will be able to give contribution and be useful for the readers especially for those who are interested in a similar study.
ABSTRACT

This classroom action research study is designed to improve students’ speaking skill by implementing Whole Brain Teaching (WBT) method. The aims of this research are: 1) to describe how WBT improve students’ speaking skill; 2) to assess the teacher performance and classroom atmosphere when WBT is implemented in class. The research is conducted from January to May 2016. The subjects of the study are the students of Eleventh Grade of SMKN 2 Surabaya. The research consists of three cycles; each cycle has two meetings. Every cycle has some steps. They are planning, action, observing, reflecting and revising the plan. Data are collected through speaking test, observation and focus group discussion. The observation was reflected in field notes, video-recording and photograph.

The researcher analyzed both qualitative data and quantitative data. Qualitative data are analyzed by using a data analysis procedure consisting of three steps namely reduction of data, presenting the data, and conclusion or verification. The quantitative data are analyzed by using descriptive statistic. Quantitative data, which are collected by conducting pre-test and post-test, are analyzed to know the improvement of students’ speaking skill. The mean score of pre-test is 46.84. This score improved to 51.16 in post-test 1 and even higher in post-test 2 that is 52.52 and higher in post-test 3 that is 58.19. From the qualitative data, the researcher finds that the implementation of WBT has also improved teacher performance and classroom atmosphere.

The finding reveals that students’ speaking skill has improved in some ways; they are able to express their ideas fluently, make some sentences using their own word and answering the questions correctly. Besides, the classroom atmosphere has also improved; they are more active to follow the activities, feel happier and their motivation has also increased.

Key words: Whole Brain Teaching, speaking skill, action research
