# OPEN ACCESS

---

- Digital
- Full-text tanpa batas
- Akses, berbagi tanpa dibatasi publisher's copyright

# DAMPAK OPEN ACCESS

---

- Diseminasi ilmu pengetahuan makin luas
- Menurunkan kesenjangan informasi
- Etika penggunaan informasi

# MODEL PENERBITAN OPEN ACCESS

---

- Green open access: institutional repository
- Gold open access: Jurnal

# FENOMENA SEPUTAR JURNAL BERBASIS OPEN ACCESS

---

- Angka pertumbuhan jurnal melesat dengan cepat
- Jurnal baru bermunculan beberapa tanpa memperhatikan kaidah & standar keilmiahan, yaitu misalnya proses *peer-review*
- Sebagian jurnal menerapkan sistem *pay for publish / author processing charge*

# OPEN ACCESS JOURNAL DI INDONESIA

---

- Mayoritas jurnal di Indonesia berbasis sistem open access (OAI, 2018)
- 1,367 jurnal terindeks di Directory of Open Access Journals (DOAJ, 2018)
- Sebagian besar jurnal dikelola oleh perguruan tinggi

# JURNAL VS ARTIKEL ?

## SEPERTI APA JURNAL YANG 'BAGUS'/BERKUALITAS?

---

- Penerbit (*Publisher*) kredibel
- Terindeks oleh pemeringkat internasional yang diakui oleh Kemristekdikti seperti *impact factor* lebih besar dari 0 dari *ISI Web of Science (Thomson Reuters)* atau dari *SCImago Journal and Country Rank* paling rendah Q3 (quartile tiga)
- Alamat jurnal dapat ditelusuri daring
- Editor Boards dari Jurnal dapat ditelusuri daring
- Proses review dilakukan dengan baik dan benar (Permenristekdikti No. 20, 2017)

# JURNAL VS ARTIKEL ?

SEPERTI APA ARTIKEL YANG 'BAGUS'/BERKUALITAS?

---

- Artikel yang mampu menampilkan metode penelitiannya dengan jelas
- Sang penulis bisa menyajikan proses analisa datanya
- Isu terbaru: open data

[Home](#) > [About](#) > [Open science](#) > [Open access](#) > [Open access journals](#)

## Open access journals

All articles in open access journals which are published by Elsevier have undergone peer review and upon acceptance are immediately and permanently free for everyone to read and download.

Each submission to *PLOS ONE* passes through a rigorous quality control and peer-review evaluation process before receiving a decision. The initial in-house quality control check deals with issues such as competing interests; ethical requirements for studies involving human participants or animals; financial disclosures; full compliance with PLOS' data availability policy, etc. Submissions may be returned to authors for queries, and will not be seen by our Editorial Board or peer reviewers until they pass this quality control check.

# BAGAIMANA PERAN PUSTAKAWAN ?

---

- Bekerja sama dengan para akademisi dalam mengembangkan layanan perpustakaan yang mendukung penelitian mulai dari
  1. pemilihan jurnal
  2. diseminasi laporan penelitian
  3. penyimpanan data

## PERAN AKTIF PUSTAKAWAN DITENGAH PERKEMBANGAN OPEN ACCESS

---

1. Memahami masyarakat pengguna perkembangan open access, misalnya variasi publikasi open access
2. Mendampingi peneliti dalam memahami berbagai aturan dan kebijakan terkait publikasi open access
3. Mempromosikan institutional repositories
4. Mengikuti perkembangan jurnal open access terkait indikator-indikator kualitas jurnal

*Scholarly publishing literacy*

# SIMPULAN

---

- Dalam memenuhi kewajiban sebagai akademisi, peneliti selalu dituntut untuk menerbitkan hasil penelitiannya, sementara ditengah berkembangnya publikasi open access banyak muncul pula jurnal berbasis open access dengan kualitas yang patut dipertanyakan.
- Fenomena ini menjadikan tantangan bukan hanya buat peneliti sendiri namun juga perpustakaan. Kemampuan pustakawan dibidang *scholarly publishing literacy* tidak kalah penting dengan kemampuan lain seperti pengembangan koleksi dan kemampuan penelusuran informasi.

---

Terima kasih
