AUTHENTICITY STATEMENT OF SCIENCECETIFIC PAPER AND PUBLICATION APPROVAL OF SCIENCECETIFIC PAPER

For sake of the development of knowledge, I as student of Widya Mandala Catholic University Surabaya:

I, undersigned below:

Name : Michelle Angela Molomu
NRP : 3303015036
Title : The Effect Of Perceived Usefulness and Perceived Ease Of Use Towards Intention To Use Through Attitude Toward Using Ovo With Gender As Moderator

Acknowledge that this thesis is authentically written by me. If it is proved that this paper is a plagiarism, I am ready to receive any sanctions from the Business Faculty of Widya Mandala Catholic University Surabaya. I also approved that this paper to be published in the internet or other media (The digital library of Widya Mandala Catholic University Surabaya) for academic importance to the extent of copyright law.

Thereby, the authenticity statement and the publication approval that I made sincerely.

FOREWORDS

First of all, the writer would like to thank God for His guidance and blessing during the process of making and finishing her thesis. Only because of His blessing the writer finished and submitted her thesis. The final report of this paper is organized as a graduation requirement that must be met to obtain a degree in Economics at the Faculty of Business Management Department of Widya Mandala Catholic University in Surabaya. The final preparation of the final report will not work properly without the help, guidance, and support from various parties. Therefore, the authors would like to thank:

1. Dr. Lodovicus Lasdi, M.M., as Dean of the Faculty of Business Widya Mandala Catholic University Surabaya.
2. Robertus Sigit H. L., SE., M.Sc, as the Head of Department of Management, Faculty of Business, Widya Mandala Catholic University of Widya Mandala Surabaya.
3. Wahyudi Wibowo, Ph.D. as Chairman of International Business Management Business Faculty of Catholic University of Widya Mandala Surabaya.
4. Dr. Cicilia Erna S, SE., M.Si as the author first Advisor, who patiently, and sincerely took the time, effort, and mind to guide the author in during the completion of this research.
5. Deatri Arumsari SE., M.Sc as the the author second Advisor, who patiently, and sincerely took the time, effort, and mind to guide the author in during the completion of this research.
6. All the lecturers Faculty of Business of Widya Mandala Catholic University, who have given their guidance and knowledge during the writer studying here.
7. My father, mother, siblings, my best friends (Ayu, Christ, and Rhei) and others who participated that giving the spirit, either in the form of moral and material in completing this final task.
8. All of the student of IBM Batch 4 especially Gunawan, Catherina, Tika, and Shenna who always sharing their thought and support.
9. All of the students who have the same Advisor whether first or second that always sharing any information about final assignment.
10. All parties who can not be named one by one, thank you for your prayers and support.
The author realizes that in this thesis are still many shortcomings, therefore criticism and constructive suggestions for improvements are expected this thesis. Hopefully this paper can provide benefits and add insight to readers.

THE EFFECT OF PERCEIVED USEFULNESS AND PERCEIVED EASE OF USE TOWARDS INTENTION TO USE THROUGH ATTITUDE TOWARD USING OVO WITH GENDER AS MODERATOR

ABSTRACT

The existence of the Industrial Revolution 4.0 made a lot to follow the development of the digital age which made the internet become very important. Especially in the financial industry that offers digital payments. OVO is one of the fastest growing applications in early 2018. However, there is still not much research that examines the factors that influence the customer's intention to use OVO and whether gender differences can also influence the use factor in OVO. Therefore, researchers want to know whether advanced technology can have an impact on the intention to use OVO.

This study uses the Technology Acceptance Model as a theoretical basis and aims to determine the relationship and influence of perceived ease of use variables, perceived usefulness, attitude toward use, intention to use, and gender as a model and propose a number of hypotheses. In this study also wanted to know the differences between gender in perceived usefulness variables and perceived ease of use and whether gender moderates these variables. This study uses the SEM (Structural Equation Model) method using PLS (Partial Least Square) analysis with 150 respondents. This study concludes that perceived ease of use, perceived usefulness, attitude toward use are important determinants of the intention to use OVO. Meanwhile, gender differences are determined not to have a moderating influence on OVO. Finally, the theoretical and practical implications of the findings and recommendations for future research will be presented and discussed.

Keywords: TAM, Gender, OVO
ABSTRAK

Adanya Revolusi Industri 4.0 membuat banyak mengikuti perkembangan zaman digital yang membuat internet menjadi hal yang sangat penting. Terutama di industri finansial yang menawarkan pembayaran digital. OVO merupakan salah satu aplikasi yang berkembang pesat di awal tahun 2018. Namun, masih belum banyak penelitian yang meneliti tentang faktor-faktor yang mempengaruhi niat pelanggan untuk menggunakan OVO dan apakah perbedaan jenis kelamin juga dapat mempengaruhi faktor penggunaan pada OVO. Oleh karena itu, peneliti ingin mengetahui apakah teknologi maju dapat berdampak pada niat untuk menggunakan OVO.

Penelitian ini menggunakan Technology Acceptance Model sebagai landasan teori dan bertujuan mengetahui hubungan dan pengaruh variabel perceived ease of use, perceived usefulness, attitude toward use, intention to use, dan gender sebagai model dan mengajukan sejumlah hipotesis. Dalam penelitian ini juga ingin mengetahui perbedaan antara gender dalam variable perceived usefulness dan perceived ease of use dan apakah gender memoderasi variabel terserbut. Penelitian ini menggunakan metode SEM (Structural Equation Model) menggunakan alat analisis PLS (Partial Least Square) dengan responden 150 orang. Penelitian ini menyimpulkan bahwa perceived ease of use, perceived usefulness, attitude toward use adalah faktor penentu penting dari intention to use OVO. Sementara itu, perbedaan gender ditentukan tidak memiliki pengaruh moderasi pada OVO. Akhirnya, implikasi teoretis dan praktis dari temuan dan rekomendasi untuk penelitian masa depan akan disajikan dan dibahas.

Kata kunci: TAM, Gender, OVO
