## STUDENTS’ COMPOSITIONS

The Best Gift for My Father

Next month, on November 2012, my brother will celebrate his birthday. I have prepared a special thing for him, I know that he will never expect about this gift. He likes motorcycles, so I have bought a bike. This bike is very expensive and special edition.

The bike is Honda CBR 250cc. I believe that everyone knows about this bike. Honda CBR 250cc is very great. It has a chassis which same like a bike in MotoGP of course in Honda Team. The colour are orange, black and white. The main colour is orange and it has a word "Perica". Perica is the main sponsor in Honda Racing Team. The word is on the left and right side.

From the machine, it has 280 cc. I think it is very common now in Indonesia. But, it is a little bit fast than Kawasaki which has the same machine. Maybe because of the size, the size of the bike.

The colour of Honda CBR 250cc is almost perfect for me.
Because of the additional mirror, of course, if the bike is for racing, there's no mirror. Overall, it is very good. The chassis is from a special thing, but I forgot. It is very tough, but it's very light. In the front, the chassis has a special black that help the aerodynamic of the bike.

Then, this bike has 6 gears. It is very good and very fast. If you with 6th years, it will run around 160 km per hour. Actually, I think it's very hard to reach the 6th gears in here. You know that, but very careful and very hard to find a big way, except in "Juanda Junda".

This bike looks like a bike in the old, but it still has 2 seats. Of course, the second seat is very scary for me. The seat is higher than the main seat.

Better if you ride this bike alone.

Fortunately, in Indonesia, Honda put provides 50 bikes. So there is a very special bike because not all people can get this bike although they are rich. Not only because of the units, when I bought this bike, I get the helmet, too. It has a signature from Barry Sheene. He is a rider from Honda Racing Team in MotoGP. But, I just give the bike, not the helmet.

From the tire, the Honda gives a special edition from Bridgestone. It's for wet & dry road. The tire is very big. When you're riding this bike, then you want to stand and let off your hands from the steer, it's okay. It will go straight normally, because of the size of the tire is big. The other example, if you want to stop the bike directly, it's okay. The stability of this bike is
very great. He's like there are no witnesses from this bite.

I believe he will very happy when I show it to him. Although it is for him, I still can borrow it. That's the point.
My Angel in Disguise

I'm going to describe my best friend Anthony Martin. At the moment, he is attending
the Cook University in Singapore, majoring in Hospitality and Tourism Management. He's 18
years old. Although he's very young, he has already in undergraduate year and he is going
to graduate in 2019 at the age of 19. How great he is! He is typical funny guy so
I'm so blessed to be friend with him. Our friendship has lasted for over 4 years.
I met him for the first time in HBLT. At that time, he and I joined English course
in HBLT. I still remembered my first impression to him. At first, I thought
that he was a cool, shy, and quiet guy and I thought that I would never to
be friend with him. However, as time went by, I started to realize that he was
not a typical person that I had thought before. He is very friendly and funny. He
really likes making weird and cute expression.

My friend is not really tall. However, he is still taller than me. His height is
only 5' 11". He is medium built. He is around 64 kilograms. He has oval face with
narrow eyes. He's wearing black glasses.Those glasses fit perfectly with his brown eye.
He also has thick and dark eyebrows. His nose is very big. He always says that big nose can bring "... tons of luck in his life." He also has chubby cheeks. It makes him look cuter. I like to pinch his chubby cheeks. His lips are small and red.

What a beautiful life he has! He has fair skin and short black hair. He usually has front fringes. Some of my friends say that he is very cute and he really looks like Nobita in Doraemon.

He always says that his biggest dream is to open a restaurant. He wishes that he could open a Western restaurant in the next five years. However, he still worries about his education too. He thinks that opening a restaurant is not as easy as flipping our hands. We need skills too. He plans to continue his study in culinary, but he is still confused whether he should take a double degree or not. As a friend, of course, I always encourage him. I always say that "you may be hurt and bleeding now, but don't worry, hard work will never betray you." I always suggest him to do what makes him happy. Live your life happily and never regret anything.

His hobbies are watch dramas and shopping. He always says "I'm not like the other guys. I don't drink or smoke but I watch dramas and shopping a lot and it's hard to quit." He is very different from other guys. However, I always think that diversity is what makes you more beautiful. He usually watches dramas when he has spare time. He can watch them until 5 hours in a row. He also likes shopping. He usually go shopping once a week. He has big interest in fashion.
really clothes and shoes. He has good sense of fashion and sometimes I ask to give me suggestion when I’m about buying clothes. He really helps me a lot.

Some people may say that he’s weird, metrosexual, talkative or even childish, but for me he will always be Anthony Martin who always helps me through a hard situation, through hard times, guy who always listen my pointless drama owar and ower again and guy who always be my bestfriend. I don’t really care about what others say about him. As long as he always does good things to me, I always consider him as my bestfriend. No matter how long distance separate us, our friendship will never die. He’ll always be my angel. Digigoe, my super best friend.
My New Best Friend

When I began my first day as a college student in the English Department of Widya Mandala University, I had no idea who would be my friends in here.

As time went by, I spent five years with friends in her. I'm feeling lucky to have them.

Right now, I'm going to tell you one of my best friends whose name is Tia.

Her full name is Atty Dhania. She is 18 years old, same as I. She is quite tall, approximately 155 cm. She has long wavy black hair. She has an oval face with big eyes, small ears, pointed nose, and thin lips. Her skin complexion is dark.

When she goes to campus, she usually wears casual clothes. Sometimes she use shirt or T-shirt to school. She seldom uses dress or skirt. Mostly, she wears flat shoes.

I only ever see her wearing sneakers once. She's also rarely using jewelry. However, in some occasion she worn watch. She travels by motorcycle from her house to campus.

So she got sunburns on her hand and feet.

What I like about her is she cares with people. She likes to pay attention to small details. For example, one of us wears a new shoe to campus and Fea is the one
Who notice it first. Even though it sound unimportant, but it does matter to people. People need to be recognize. She is also a type of generous person. She isn’t a stingy person. She always helps me when she is able to do so.

She’s patient and kind-hearted. She gives us solution to our problems when we need it. She likes to joke around too. It seems that every word that she says is funny and it makes us laugh. She’s a diligent person too. Sometimes she helps her siblings when they have English test on the next day. However, she can get panic when she have tough problems. If that’s happen, we have to calm her down first then we give her suggestions to her problems. It’s normal to be panic in that kind of situation but it also important to remain calm. She can be an extravagant when she feels stress especially on food. I do the same thing also when I feel stress. So, I don’t think that problem can be solved.

I’m happy to have Tia as one of my new friends in campus. She’s not the perfect one, but I’m sure that she’s the best one. So far, we have never had a fight. I hope that we can still be friends even though we’re graduated from here. Some people say that friendship in college degree doesn’t last long but I hope we do have it.
My Close Friend

I would like to describe my close friend. I first met her in 10 class. At that time, we sat on the same bench and I tried to introduce myself.

Next, we enjoyed our conversations and we have been friends until now. Her name is Charisma Safitri Tsaawati. She lives with her aunt in Sabro Boro, Surabaya. Her parents work in Medan. Her mother works as a businesswoman and her father works as a pharmacist. She ever told me that actually she misses her parents very much but she did not want to move to live with her parents in Medan because she loves Surabaya. Now, she is nineteen years old. Charisma was born in Surabaya, March 27, 1995 as a first daughter in her family. Her brother studies in Senior High School. I think, Charisma has a close relation with her brother because they sometimes spend their times together like shopping windows or just cycling together.

My friends and I usually call her "Risma". She is quite good looking with thin body. She is tall enough around 156 cm and 46 kg weight. She has long...
straight black hair with a fair skin. Like others people, she also has eyes, a nose, lips, and ears. I will make details about that, she has big round black eyes and a pointed nose. If you see on her nose, there is a small mole in the right side.

She has medium ears with beautiful earrings. She also has small thin pink lips with oval face. She likes using casual styles but sometimes she also likes using a bit glamour style when she goes to campus. For accessories, she loves using watch and a bracelet with colourful colour and mode / kind. She doesn’t like using high heel but she loves using flat shoes combine with cardigan or blouse.

Charisma is quite silent if you haven’t known her yet. I think if you have been her close friends, you can know that Charisma actually a talkactive person. Sometimes I think she can be a talkactive person because she has tin lips, on the other side I am not really sure about that. If she becomes a talkactive person, she will talk about anything that she loves. Because of that, sometimes I feel annoy with her. She also can be a childish person when she wants more care from everyone.

Charisma likes doing a photo session with his boyfriend. Fortunately, her boyfriend is a photographer so she can do their hobbies together. Charisma as a model, one thing that more specific from her that she loves zebra very much. Because of that, if she is going shopping with me, she will buy anything which has a pattern like zebra. Until now, she has had a bag, a blouse, shoes and casing headphone which have pattern like zebra. I think she becomes crazy because zebra. Do you
know? She also uses a book, which has a cover like a pattern zebra.

From all, I hope we can be close friends forever and I like her not only her appearance but also her attitude. 😊
My Grandpa, My Hero

My grandfather's name is Sekohlu Wong Setiady and his Maiden name is Seo On Sun. He was born in China on 16th of May, 1936. He is 80 years old now and still very healthy. He has an cool face with round and big eyes. He has a pointed nose, small lips, and he doesn't have any mustache because he always shaves it every two days in a week.

His hair wrinkles all over his face because he is already old but he still looks younger than his age and still very handsome. His hair is parted to the right side and still thick. He doesn't like his hair to be too long and too thick so he cuts it every three weeks in a bar salon near my house.

Sometimes, he dyes his hair in black colour so he could look younger. My grandpa usually does it for himself. I like the way he talks because he has a clear yet loud voice. He has a good voice too and he likes to sing when he's driving or go to a karaoke place with his friends. He likes old Chinese and Western songs. He has been married to my grandmother for more than 50 years and they will be celebrating their golden marriage in the next few years. Although he is a little bit hot-tempered, he has a good personality. He doesn't like to punish his child and grandchildren by physical punishment and he gives advice so we don't repeat the same mistake in the future. His hobby is...
traveling and watching TV. He likes to travel with my grandma and his friends. Movie that he like
are old and new Chinese movies. He doesn’t like to watch movie in the theater because it’s too loud.

His favorite food is pork star and meat, vegetables, beef, and damn. He always brings damn every time
he go to the supermarket or grocery store. His favorite side restaurant is Cole Bar and close
near my house. He often gave there to eat or to buy some portions of sob to take away. Now, I
want to tell why my grandpa becomes my hero. It is because when I was small, my
father and mother got divorced and my mother left me in my dad’s care. My dad didn’t take care
of me because of the depression caused by the divorce. So, my grandpa decided to take care of
me and to take care of me.

Every weekend, he brought me to the mall and some good restaurants
with my grandpa and my brother. He even paid my school’s fee in elementary school until senior
high school. Even until now, he still pay my university tuition fee. He often gets angry with me
but he still forgives me and treat me like his own son. He always comfort me around when I was small.
I liked it because he is so tall and even taller than me now. He has an ideal body and
he still can eat everything as long as it is not too salty or too much. He loves to pull a prank too
at his grand children by teasing them or pestling them by using his fingers. That’s all the reason
why my grandpa is like a hero to me. I hope he can live long and stay healthy so he
can make more memory with me and my family.
My Attractive Senior

Vernonies Octie Surody, is my senior in a gathering of tenis. He is one of my seniors that is really good at playing tennis. Our first meeting was begun by a ridiculous accident because I had thought he was my tennis participant. In fact, he is an alumni of Chemical Technique of Widya Mandala Surabaya.

Octie, a twenty-five-year-old man, was born in Sorong on October 12th. He is nice enough with his silent eyes. His eyes are so narrow that the people cannot see the eyes when he is smiling or laughing. His face is round with two chubby cheeks. It makes the people pinch his cheeks when seeing him. He looks very muscular even his face seems little childish. We can see his authority from how he talks to the others, how he stands at people, and how he walks. He not only has nice eyes but also a small mouth with extensive smile. I am quite sure his smile will make you be hypnotized until want to see his smile again. Actually, he is not too fat. With 75 kilograms in weight and 170 cm in height makes Octie look ideal.

He is talkative enough actually but he will be a quiet person when meeting the people who he doesn’t know very well. Although he is talkative, he is able to break the ice when
the atmosphere is not really good and also had the surrounding people to be more active in doing
something. For example, he is able to force my tennis participants to play tennis with the other members by
saying a lot of advices and telling his experience during his studying period here. It is not easy
to force some inferior participants to play tennis with the others because they think that they are not
proper to play tennis with the expert. However, Ochie can do that I cannot do and it makes
me learn his way to lead this organization.

He not only likes playing tennis but also playing badminton. Every Friday, he
plays tennis and every Saturday he plays badminton. In the field, he becomes more attractive.
When he serves a ball, the ball will go in exactly. His bat is also very hard to be responded.
However, he will play tennis beautifully when he is quite tired. Playing tennis beautifully means
there are not many hits but tricky hits to the opposite team. The tennis field will not be
interesting if there is no Ochie there.

All in all, I am really glad having a good senior like Ochie. I really hope he
will stay in Sunhwa longer so I can learn a lot of things from him.
Describing an Object.

A Special Gift to My Brother.

I have an elder-brother. His name is Renaddy. He likes drawing, so do I.

If there is no busy time, he usually draws on canvas. Well, I can see that he
likes drawing so much. Not only drawing but he sells the paintings too. He can
earn his own pocket-money.

Well, next month he is going to celebrate his birthday. Now, I’ve thought of
what gift I should give to him is. Of course, I’m going to give him a set of painting.
Well, it looks quite expensive, but it’s ok. I’m glad to give the gift to him.

There are many tools and the paints. For the tools, there are pallets, brush
and some pencils for painting. The pallets are brown and light brown. They are
thick and solid. I love the pattern. Both of them are wooden pattern. The aroma
seems like Ebony wood. For the brushes, I bought them for my brother in paint
store. There are a lot of kinds and sizes. They are pointed-brushes, brush for canvas
and square brush. I don't know actually what their names are, but I know exactly the shape. So the first brush that I've mentioned is for writing Japanese letter or "Kanji". The second brush is for canvas and paper, the color is black. And the last is actually for canvas or wall, so the size is quite big. I bought a dozen for each kind.

OK, for the pencils, there are 2 kinds. They are made of wood and the other, there is no wood, just the pencil. It is heavy and solid. The length is about 12 cm. I still remember the price. It is Rp 26,000.-.

All of that I've mentioned is just the tools for painting, and now I want to describe the paint. The paint box is red and gold. It looks ancient, rare and unique but it is the best paint for me. No matter the box, how the paint is... In the box, there are 25 colors including silver and gold. Every single color has a beautiful cup I see a dragon on the cup. The cup is not big enough, I think, because almost all of brushes that I've bought are too big and it is not matched with the paint cup.

That's all that I can give for my brothers birthday. I'm going to wrap it and save it until next month for the surprise. Hopefully he doesn't know what I'm doing right now. Hehehe...
A Leader and A Friend

There are many leaders in my church. Each one of them are leading a group based on their districts that is chosen by the pastor and the ministry. I joined the Klampis district two years ago and my leader was Arlan. He teaches me a lot of things until now and I think he is a great leader and also a good friend.

He has oval face and straight hair. He wears glasses and his eyes are almond-shaped. He is quite slim and his body is well-built. He isn’t too tall but he is very strong and he has a good stamina. I think it’s because he likes to go to the gym twice a week.

He is an easy-going person. He never complains about his problems and he always do whatever he can to solve it. He is a caring and kind-hearted person. He always helps his friends’ problem. If he can help them, he tries to find someone who could help them. He likes to wear T-shirts and jeans when he is hanging out with his friends.

He is 21 years old now. He has been studied in Udaya for 3 years. He hopes the Indonesia Technical College. At first, I think he was a lazy person. Actually, he is a diligent and smart person. He usually teach his friends when they didn’t know about the lecture.
Overall, I think he is a perfect leader that is chosen for me. He has changed me.

Of my bad personality and he teach me about God’s kindness in people’s life. I’m glad that I joined Minor Storm church and I’m glad that I met him.
My Roommate, Tata.

Tata has been my roommate about two years. First time I met her was the day I moved to my boarding house. She was the first person who introduced herself and greeted me. We became very close since that day.

Tata was born on December 12, 1989. Now she is 23 years old.

She is four years older than me. She was a student of Widya Mandala Surabaya majoring in Physics development but now she is a Physics teacher at Catholic Senior High School - Pratama.

My close friend Tata is quite pretty. She is tall and slim. Her a perfect body for an artist's model. She has a long smooth black hair and white skin. She has an oval face with big brown eyes, her pointed nose, and rosy lips. Her small chin looks very cute. She looks very pretty especially when she smiles. Whenever she smiles, you can see there is a dimple on her left cheek.
Tara is a feminine girl, she likes wearing a short skirt and a
top for when she goes shopping with me. She is also smartly
wearing up her face.

As long as I have been living with her, we have never quarrel each other.
She is very friendly and polite girl. She is also very patient, she is never
angry with me even though sometimes I hurt her heart. She is really a
best friend for me, she always understand what I feel. Sometimes
she isn’t to be my own sister. When I get trouble, I share my problem
with her, and she tells me what I have to do, same like my mother did.

Tara’s hobbies are almost same with me; she interest in art.
She can dance, paint and also playing musical instrument such as
guitar and piano. Sometimes when we have free time, we play musical
instrument together. She plays the piano and I play my guitar. It make
the situation at my room become like a music studio.

I very bliss to have her as my roommate. She is very kind
and polite. I like her personality. I hope we will become a close
friend forever even though later we will not live together.

STUDENTS’ ANALYZED COMPOSITIONS

The Best Gift for My Brother

Next month on November 20th, my brother will celebrate his birthday. I have prepared a special thing for him. I know that he will never expect about this gift. He likes motorcycles, so I have bought a bike. This bike is very expensive and special edition.

This bike is Honda CBR 250 cc. I believe that everyone knows about this bike. Honda CBR 250 cc is very great. It has a chassis which same like a bike in MotoGP, of course in Honda Team. From the machine, it has 250 cc. I think it is very common now in Indonesia. But, it is a little bit fast than Kawasaki which has the same machine. Maybe because of the size, the size of the bike.

The choice of Honda CBR 250 cc is almost perfect for me.
Because of the additional mirror, of course, if the bike is for racing, there's no mirror overall, it is very good. The chassis is from a special thing, but I forget.

It is very tough and it's very light. In the front, the chassis has a special plate that helps the aerodynamics of the bike.

Then, this bike has 6 gears. It is very good and very fast. If you ride the 6th gear, it will run around 150 km/hour. Actually, I think it's very hard to reach the 8th gear in here. You know that Honda is very competitive and very hard to find a long way, except in 'Grand Tour'.

This bike looks like a bike in Indonesia, but it still has 2 seats. Of course, the second seat is very scary for me. The seat is higher than the main seat.

Better if you ride this bike alone.

Unfortunately, in Indonesia, Honda still provides a bike. So, the bike is very speed. Because not all people can get this bike, although they are rich. Not only because of the price, when I bring this bike, I get the helmet too. It has a sponsorship from Bridgestone. He is a rider from Honda Racing Team in Red Bull. But, I just give the bike, not the helmet.

From the type, the Honda gives a special edition from Bridgestone. It's for wet & dry road. The tire is very big. When you're riding this bike, then you want to stand and let off your hands from the door, it's okay. It will go straight normally. Because of the size of the tire is not big. The other example, if you want to stop the bike directly, it's okay. The stability of this bike is...
Very good. It's like there were witnesses from this bite.

I believe he will very happy when I show it to him. Although it is

for him, I will also borrow it. That's the pencil.

My New Best Friend

CX

When I began my first day as a college student of English Department at Widy Mandala University, I had no idea who would be my friends in here.

What I like about her is she ones with people. She likes to pay attention at small details. For example, one of us wears a new shoes to campus and Fia is the one...
who notice it first. Even though it sound unimportant, but it does matter to

S

people. People need to be recognize. She is also a type of generous person.

Cx

S

She isn't a stingy person. She always helps me when she is able to do so.

Cx

S

She's patient and kind-hearted. She gives us solution to our problems when we

Cx

Cm-Cx

need it. She likes to joke around too. It seems that every word that she says

S

is funny, and it makes us laugh. She's a diligent person too. Sometimes she helps

Cx

her siblings when they have English Test on the next day. However, she can get

Cx

Cm-Cx

panic when she have tough problems. If that happen, we have to calm her down

Cm

first then we give her suggestions to her problems. It's normal to be panic in that

Cx

kind of situation. But it also important to remain calm. She can be an extravagent.

Cx

when she feels stress, especially in food. I do the same thing also when I

Cx

feel stress. So I don't worry that problem can be solved.

Cx

I'm happy to have Xia as one of my best friends in campus. She's not

Cm-Cx

the pretty one, but I'm sure that she's the best one. So far, we have

Cx

never had a fight. I hope that we can still be friends even though we've

Cm-Cx

graduated from here. Some people say that friendship in college degree doesn't

last long but I hope we do have it.
My Close Friend

I would like to describe my close friend. I first met her in 1C class.

At that time, we sat on the same bench and I tried to introduce myself.

Next, we engaged our conversations and we have been friends until now. Her name is Charisma Safiari Iswara. She lives with her aunt in Soro Bono, Surabaya.

Her parents work in Medan. Her mother works as a businesswoman and her father works as a pharmacist. She once told me that actually she misses her parents very much but she did not want to move to live with her parents in Medan because she loves Surabaya. Now, she is nineteen years old. Charisma was born in Surabaya, March 27, 1993 as the first daughter in her family.

Her brother studies in Senior High School. I think, Charisma has a close relation with her brother because they sometimes spend their times together like shopping, watching TV or just cycling together.

My friends and I usually call her "Rima." She is quite good looking with thin body. She is tall enough around 156 cm and 46 kg weight. She has long...
straight black hair with a fair skin. Like others people, she also has eyes, a nose,
lips, and ears. I will make details about that. She has big round black eyes and
a pointed nose. If you see on her nose, there is a small mole in the right side.
She has medium hair with beautiful earrings. She also has small thin pink lips
with oval face. She likes using casual clothes but sometimes she also likes using
a bit glamorous style when she goes to campus. For accessories, she loves using a watch
and a bracelet with colorful color and mode / kind. She doesn’t like using high heel
but she loves using flat shoes combing with cardigan or blouse.
Chorisma is quite silent if you haven’t known her yet. I think if you have
been her close friends, you can know that Chorisma actually a talkative person.
Sometimes I think she can be a talkative person because she has thin lips, on the
other side I am not really sure about that. If she becomes a talkative person,
she will talk about anything that she loves. Because of that, sometimes I feel
annoy with her. She also can be a childish person when she wants more care from
everyone.
Chorisma likes doing a photo session with his boyfriend. Fortunately, her boyfriend
is a photographer so she can do their hobby together. Chorisma as a model. One
ting that more specific from her that she loves teba very much. Because of
that, if she is going shopping with me, she will buy anything which has a pattern
she teba. Until now, she has had a bag, a blouse, shoes and using homophone
which have pattern like teba. I think she becomes crazy because teba. Do you
Cm - Cx

know? She also uses a book which has a cover like pattern fabric.

Cm - Cx

From all, I hope we can be close friend forever and I like her not only her appearance but also her attitude.
My Grandpa, My Hero

My grandfather's name is Sekharda Wung senggen, and his Madam name is Wyng ilin.

He was born in China in 18th of May 1936. He is 76 years old now and still very healthy. He has an oval face with round and big eyes. He has a pointed nose, small lips, and he doesn't have any mustache because he always shaves it every two days in a week.

He has wrinkles all over his face because he is already old, but he still looks younger than his age and still very kind. Some of his hair is parted to the right side and still thick. He doesn't like his hair to be too long and too thick, so he cuts it every three weeks in a salon near my house.

Sometimes, he dyes his hair in blonde color so he could look younger. My grandma usually does it for him. I like the way he talks because he has a clear and loud voice and he has a good sense of humor. He likes to sing when he's driving or go to a beautiful place with his friend. He likes old Chinese and Western song. He has been married to my grandmother for more than two years, and they will be celebrating their golden marriage in the next few years.

Although he is a little bit hot-tempered, he has a good personality. He doesn't like to punish his child and grandchild by physical punishment and he gave advice so we don't repeat the same mistake in the future. His hobby is...
He likes to travel with my grandma and his friends. He loves that he likes to travel, and now Chinese movies he doesn't like to watch movies in the theater because he is too loud.

He goes to the supermarket or grocery stores. His favorite store is Cask, and it is near my house. He often goes there to buy some portions of whatever to take away. Now, I want to tell why my grandpa becomes my hero. It is because when I was small, my father and mother got divorced and my mother left me in my dad's care. My dad didn't take care of me because of the depression caused by the divorce. So, my grandpa decided to take me in and to take care of me. Every weekend, he brought me to the mall and some good neighborhoods with my grandmom and my brother. He paid my high school's fee in elementary school until some high school. Even until now, he still pays my university tuition fee. He often gets angry with me, but he still forgave me and treated me like his own. He always cared me most when I was small.

I liked it because he is so tall and even taller than me now. He has an ideal body and he still plays everything as long as it is not too oily or too much. He likes to pull a prank too at his good children by tricking them or making them by using his friends. That's why he is a hero to me. I hope he can live long and healthy so he can make more memories with me and my family.
My Alternative Senior

Vincentius Ochi Sianandy is my senior in a gathering of tennis. He is one of my seniors that is really good at playing tennis. Our first meeting was began by a ridiculous accident.

Because I had thought he was my tennis participant. In fact, he is an alumnus of Chemical Technique of Widy Mandala Surabaya.

Ochi, a twenty-five-year-old man, was born in Semarang on October 11th. He is nice enough with his pleasant eyes. His eyes are so narrow that the people cannot see the eyes when he is smiling or laughing. His face is round with two chubby cheeks. It makes the people pinch his cheeks when seeing him. He looks very muscular even his face seems little childish. We can see his authority from the way he talks to the others, how he strores at people, and how he walks. He not only has nice eyes but also a small mouth with attractive smile. I am quite sure his smile will make you be hypnotized and want to see his smile again. Actually, he is not too fat. With 75 kilograms in weight and 170 cm in height, indicate Ochi look ideal.

He is talkative enough actually but he will be a quiet person when meeting the people who he doesn't know very well. Although he is talkative, he is able to break the ice when
The atmosphere is not really good and also lead the surrounding people to be more active in doing something. For example, he is able to force my tennis participants to play tennis with the other seniors by saying a lot of advice and telling his experience during his studying period here. It is not easy to force some inferior participants to play tennis with the seniors because they think that they are not proper to play tennis with the experts. However, Ochi can do that. I cannot do and it makes me learn his way to lead this organization.

He not only likes playing tennis but also playing badminton. Every Friday, he plays tennis and every Saturday he plays badminton. In the field, he becomes more attractive. When he serves a ball, the ball will go in exactly. His hat is also very hard to be responded. However, he will play tennis beautifully when he is quite tired. Playing tennis beautifully means one does not make any bad hits but tricky hits to the opposite team. The tennis field will not be interesting if there is not Ochi there.

All in all, I am really glad having a good senior like Ochi. I really hope he will stay in Sasebo for longer so I can learn a lot of things from him.

**Describing an Object.**

**A Special Gift to My Brother.**

I have an elder-brother. His name is Renaldi. He likes drawing. So do I.

If there is no busy time, he usually draws on canvas. Well, I can see that he likes drawing so much. Not only drawing but he sells the paintings too. He can earn his own pocket money.

Well, next month he is going to celebrate his birthday. Now, I’ve thought of what gift I should give to him is. Of course, I’m going to give him a set of painting. Well, it looks quite expensive but it’s OK. I’m glad to give the gift to him.

There are many tools and the paints. For the tools, there are pallets, brushes and some pencils for painting. The pallets are brown and light brown. They are thick and solid. I love the pattern. Both of them are wooden pattern. The aroma seems like Ebony wood. For the brushes, I bought them for my brother in paint store. There are a lot of kinds and sizes. They are pointed brushes, brush for canvas.
and square brush. I don't know actually what their names are, but I know exactly the shape. So the first brush that I've mentioned is for writing Japanese letter or "Kanji". The second brush is for canvas and paper, the color is black. And the last is actually for canvas or wall, so the size is quite big. I bought a dozen for each kind.

OK, for the pencils, there are 2 kinds. They are made of wood and the other, there is no wood, just the pencil. It is heavy and solid. The length is about 10 - 12 cm. I still remember the price. It is 80,000 yen.

All of that I've mentioned is just the tools for painting, and now I want to describe the paint. The paint box is red and gold. It looks ancient, rare and unique but it is the best paint for me. No matter the box, how the paint is. In the box, there are 25 colors including silver and gold. Every single color has a beautiful cup. I see a dragon on the cup. The cup is not big enough, I think, because almost all of brushes that I've bought are too big and it is not matched with the paint cup.

That's all that I can give for my brother's birthday. I'm going to wrap it and save it until next month for the surprise. Hopefully he doesn't know what I'm doing right now.
**A Leader and A Friend**

There are many leaders in my church. Each one of them are leading a group based on their district that is chosen by the pastor and the ministry. I joined the Kelopak District two years ago and my leader was Artina. She teaches me a lot of things until now and I think she is a great leader and also a good friend.

He is 1.76 meters tall and weighs 70 kg. He wears glasses and his eyes are almond-shaped. He is quite slim and his body is well-built. He isn’t too tall but he is very strong and he has a good stamina. I think it’s because he has to go to the gym twice a week.

He is an easy-going person. He never complains about his problems and he always does whatever he can to solve it. He is a careful and kind-hearted person. He always helps his friends’ problems.

He is 24 years old. He has been studying in Vumen for 3 years. He is a student of the Industrial Technology Department. At first, I think he was a lazy person. Actually, he is a diligent and sometimes

Overall, I think he is a perfect leader that is shown in me. He has change most of my bad personality and he teach me about God's kindness in people's life. I'm glad that I joined Minor Ston Church and I'm glad that I met him.
My Roommate Taka

Taka has been my roommate about two years. First time I met her was the day I moved to my boarding house. She was the first person who introduced her self and greeted me. We became very close since that day.

Taka was born on December 13, 1989. How she is 33 years old. She is four years older than me. She was a student at Widya Mandala too.

She is majoring physics development but now she is a physics teacher at Catholic Senior High School, Fraterca.

My close friend Taka is quite pretty. She is tall and slim. It is a perfect body for an artist's model. She has a long smooth black hair and wide skin. She has an oval face with big brown eyes. Her pointed nose makes her beautiful and her small thin lips make her very cute. She looks very pretty especially when she smiles. Whenever she smiles, you can see there is a dimple on her left cheek.
Tara is a feminine girl. She likes wearing a short skirt and a
back kat when she goes shopping with me. She is also smartly
wearing up her face.

As long as I have been living with her, we have never quarrel each other.
She is very friendly and polite girl. She is also very patient. She is never
embitter with me even though sometimes I hurt her heart. She is really a
good friend for me. She always understand what I feel. Sometimes
she like's to be my own sister. When I get trouble, I share my problem
with her, and she tells me what I have to do. Same like my sister did.

Tara's hobbies are almost same with me. She interest in art.
She can dance, paint and also playing musical instrument such as
guitar and piano. Sometimes when we have free time, we play musical
instrument together. She plays the piano and I play my guitar. I make
the situation at my room become like a music studio.

I very bless to have her as my roommate. She is very kind
and polite. I like her personality. I hope we will become a close
friend forever even though later we will not live together.
