This thesis entitled English Teaching Supplementary Material Development for Elementary School Students Grade Four prepared and submitted by Natalia Halim, has been approved and accepted as a partial fulfilment of the requirements for the Sarjana Pendidikan Degree in English Language Teaching by the following advisors:

Prof. Dr. Veronica L. Diproadi, M.Sc.  
First Advisor

Dra. M. N. Siti Mina Tamah, M.Pd  
Second Advisor
APPROVAL SHEET (2)

This thesis has been examined by the committee on oral examination with a grade of ____________ on May 14, 2005.

ACKNOWLEDGEMENTS

“I can do all things through Christ which strengthened me”

(Phillipians 4:13)

First of all, the writer wants to thank Jesus Christ, the owner of her life for His Blessings and Love which enable her to overcome all the difficulties.

In doing this study, the writer wants to give her biggest appreciation for the people who guide her patiently in writing this thesis, Prof. Dr. Veronica L. Diptoadi, M.Sc and Dra. M. N. Siti Mina Tamah, M.Pd. The writer wants to thank them for being the best advisors that she ever has. The writer cannot find more beautiful words but can sincerely pray for them.

Her gratitude also goes to her respondents, Drs. Yohanes Geraldo Harto Pramono, M.Pd and Elok Yulia, S.Pd for the willingness to give the valuable feedback and suggestion. Thank you for all the fourth grade students in WIMA Kid, C.E.C English course and SD Yohanes Gabriel for the great comments. The writer also cannot forget the generosity of their teachers and principal who give the permission for her to involve students as her respondents. God always bless them all.

She also would like to express her sincere thanks to her family for their support especially her beloved mother for her endless prayer and encouragement. She also wants to give a great thanks to her cousins, Lydia Wongsonegoro, S.H for her sincere support during the writer’s studies. The writer feels very lucky to have a kind of family like them.
The next appreciation goes to the people in her workplace TK Taman Kecil, especially to the head of the foundation, Mrs. Nanik Honggowati, BA for her patient and understanding in giving the writer permissions to finish this thesis. God bless her.

For all the writer’s friends who cannot be mentioned one by one, thank you very much for the supports, “that’s what friends are for”. The writer believes they are the best friends that she ever has and God will reply their kindness so much more than they’ve done because of their sincerity. The writer also cannot forget the cheerful time when she joined the B class. The writer loves them all and she’s going to miss that moment in time.

Last but not least the writer wants to acknowledge all the lecturers in the Faculty of Teacher Training and Pedagogy of Widya Mandala Catholic University. Thank you very much for the guidance and teaching, God bless them all.

The writer

ABSTRACT

Advisors: (1) Prof. Dr. Veronica L. Dipotoadi, M.Sc. (2) Dra. M. N. Siti Mina Tamah, M.Pd
Keywords: Material Development, Curriculum, Competency.

There are three important instruments running the education system. They are learners, teachers and materials. Their positions are inseparable and complementary each other. If the quality of the learners and teachers are improving, so should the materials that become a direction for teacher to promote a friendly environment in the classroom be. Materials are really needed especially for young students who still need a lot of activities to stimulate their motivation in learning. The good materials are the ones, which are suitable with the students’ need and ability also called competence. Indonesia government also considers the importance of an instruction based on the students competence, so the new curriculum named KBK has just been implemented in education recently.

There are some purposes for the writer to conduct this study. The first is to find out the way to develop English teaching materials for Elementary school students grade four, as there are still not enough interesting local materials based on KBK. The second purpose is to find out the acceptance of the target students to the materials that have been developed by the writer. The materials can indirectly prove that it’s not very difficult to develop materials for teaching and encourage the English teachers of Elementary school to develop materials for their students themselves and not to depend on the existing materials.

For the stages in developing materials, the writer uses the theory of Dick and Carey’s Instructional design. They are determining topics of the study, identifying the instructional goal, identifying the instructional analysis, writing performances objectives, developing criterion referenced test items, developing an instructional strategy and developing instructional materials.

To find out whether the materials are suitable for the target students, the writer conducts an evaluation. There are three stages of evaluation. The first one is called one to one testing, the second is small group evaluation, and the last is large group evaluation. The evaluation is in the form of questionnaires distributed to the English teacher in Elementary school grade four or considered as the content expert, the design expert, and the students of Elementary school grade four.

From the feedback of one content expert, one design expert and twenty elementary school students who filled in the questionnaires, the writer concludes that the students and the teacher can accept the materials and use it as a supplementary materials for teaching English.
