Satisfaction in Cocari restaurant in Surabaya accepted.

5.2. SUGGESTION

Based on the conclusions that have been put forward several recommendations can be given in the form of suggestions that can be taken into consideration for Cocari Restaurant in Surabaya:

1. Academic Significance

This object on Cocari restaurant in Surabaya used in this study focused on respondents who have purchased and consumed product in Surabaya, so the result of Cocari restaurant is open. This provides opportunities for advanced study to conduct further research into the effects of Assurance, Price, Responsiveness and Empathy, Meal Pace and Realibility to Customer Loyalty through Customer Satisfaction on products in other restaurant.

2. Practical Significance

For the restaurant manager of Cocari in Surabaya, need to pay attention about the lowest value compared to other independent variables. In order to compete in the food and beverage industry is tight at the moment, so the manager Cocari restaurant in Surabaya have to defend the
values that have been attached to the respondents. The activities that can be done for example, among others:

a. Train employees to be able to listen well, such as for example the employees should be able to give full attention, listen to customer complaints by making genuine and write down what customers are complaining then get specific matters of complaint.

b. Train employees to be able to apologize sincerely to customers. It is indeed quite difficult to do, especially if it is not the employee who caused the problem. However, employees must remain capable of pleasing the customer by always being sincere.

c. Train employees to be able to convince the customer that is able to repair mistakes made by customers to continue going back to Cocari. Of course, employees must also be able to perform precaution to prevent mistakes that have been made do not happen again.
