

BAB VII

SARAN - SARAN

Berdasarkan penelitian yang telah dilakukan maka disarankan :

1. Perlu dilakukan penelitian uji aktivitas lebih lanjut terhadap ekstrak *Solanum nigrum*, *Solanum indicum*, *Solanum chasianum*, dan *Solanum verbascifolium* yang menunjukkan aktivitas pada uji BST.
2. Perlu dilakukan isolasi dan identifikasi bahan-bahan bioaktif yang terdapat dalam ekstrak *Solanum nigrum*, *Solanum indicum*, *Solanum chasianum*, dan *Solanum verbascifolium*.
3. Perlu dilakukan penelitian pendahuluan aktivitas biologik terhadap spesies *Solanum* yang lain dan tumbuhan suku lain yang ada di Indonesia dengan menggunakan BST, dalam rangka mencari bahan bioaktif yang berasal dari alam.
