# GREETING FROM STEERING COMMITTEE

*Assalamualaikum Warahmatullahi Wabarakatuh*

Honorable Rector of Universitas Airlangga  
Honorable Dean of Faculty of Nursing, Universitas Airlangga  
Honorable Head of Co-Host Institutions  
Distinguished Speakers and all Participants

Praise the presence of God Almighty, for his mercy so that Faculty of Nursing Universitas Airlangga can organized The 7<sup>th</sup> International Nursing Conference on the theme "The Global Nursing Challenges in The Free Trade Era". Welcome in Surabaya, City of Heroes Indonesia.

This international nursing conference is conducted in cooperation with 12 nursing schools throughout the nation. These institutions are the Faculty of Nursing and Midwifery Universitas Nahdlatul Ulama Surabaya, Faculty of Health Science Universitas Muhammadiyah Surabaya, STIKES Ngudia Husada Bangkalan, STIKES Pemerintah Kabupaten Jombang, STIKES Maharani Malang, Poltekkes Kementerian Kesehatan Malang, Poltekkes Kementerian Kesehatan Surabaya, Faculty of Health Science Universitas Islam Sultan Agung Semarang, Faculty of Health Science Universitas Pesantren Tinggi Darul Ulum Jombang, STIKES Insan Cendekia Husada Bojonegoro, STIKES Nurul Jadid Probolinggo, STIKES YARSI Mataram, and Faculty of Nursing Universitas Muhammadiyah Banjarmasin. Fortunately, this international nursing conference also supported by our partner institutions abroad: Flinders University\* (Australia), and Japan International Cooperation Agency (JICA); and also by professional and other organisations including: AINEC\* (The Association of Indonesian Nurse Education Center), Ibn-e-Seina Hospital & Research institute Multan (Pakistan) and INNA\* (Indonesian National Nurses Association).

Participants of this conference are lecturers, nurses, students both from clinical and educational setting, regional and overseas area.

Finally, I would like to thanks to all speakers, participants, co-host institutions and sponsors so that this conference can be held succesfully.

Please enjoy the international conference, i hope we all have a wonderful experience at the conference.

*Wassalamualaikum Warahmatullahi Wabarakatuh*

**Steering Committee**

# OPENING REMARK FROM THE DEAN OF FACULTY NURSING

*Assalamualaikum Warahmatullahi Wabarakatuh*

Honorable Rector of Universitas Airlangga  
Distinguished speakers and all Participants

First of all I would like to praise and thank God for the blessing and giving us the grace to be here in a good health and can hold this conference together. Secondly, it is a great privilege and honor for us to welcome every one and thank you very much for your participation and support for the 7<sup>th</sup> International Nursing “**The Global Nursing Challenges in The Free Trade Era**”.

Globalization opens opportunities for nurses to compete with other nurses and work abroad. Nurses should constantly improve their competency in providing excellent nursing care. The sustainability of education related to the latest science and nursing knowledge is very important for all nurses who are working in the clinic, community, and educational nursing system, to enhance their competencies

Research and education into clinical and community practice is very important to enhance nursing competencies with nurse colleagues in the international sphere. Indonesia face problems such low frequency of nursing conference, number of researches, also international publications. This problem can hinder quality improvement of nursing services.

Along with Universitas Airlangga vision to become a world class university and enter top World University Ranking, Faculty of Nursing, participates actively in reaching the vision. To achieve World Class University ranking, faculty needs to meet the standards of World's top Universities such as Academic reputation, employer reputation, publication, faculty standard ratio, international students and exchange. International Nursing Conference is one of the few strategies that have been implemented by the faculty to increase Publication standard.

In 2016, the Faculty of Nursing Universitas Airlangga started to collaborate with 12 nursing schools throughout the nation that have the same concern to overcome the situations. These institutions including Faculty of Nursing and Midwifery Universitas Nahdlatul Ulama Surabaya, Faculty of Health Science Universitas Muhammadiyah Surabaya, STIKES Ngudia Husada Bangkalan, STIKES Pemerintah Kabupaten Jombang, STIKES Maharani Malang, Poltekkes Kementerian Kesehatan Malang, Poltekkes Kementerian Kesehatan Surabaya, Faculty of Health Science Universitas Islam Sultan Agung Semarang, Faculty of Health Science Universitas Pesantren Tinggi Darul Ulum Jombang, STIKES Insan Cendekia Husada Bojonegoro, STIKES Nurul Jadid Probolinggo, STIKES YARSI Mataram, and Faculty of Nursing Universitas Muhammadiyah Banjarmasin. Under the concern of long commitment for better health outcome of Indonesia, the Faculty of Nursing Universitas Airlangga once more aims to elaborate with the aforementioned institutions and international universities through holding an international nursing conference. The international universities include: Flinders University\* (Australia), Japan International Cooperation Agency (JICA); and professional organisations including: AINEC\* (The Association of Indonesian Nurse Education Center), Ibn-e-Seina Hospital & Research institute Multan (Pakistan) and INNA\* (Indonesian National Nurse Association).

Finally, I would like to thanks to all speakers, participants, and sponsorships that helped the success of this event. I hope that this conference have good contribution in increasing the quality of nursing and nursing care.

Please enjoy the international conference. I hope, we all have a wonderful time at the conference.

*Wassalamualaikum Warahmatullahi Wabarakatuh*

**Prof. Dr. Nursalam, M.Nurs (Hons)**

Dean, Faculty of Nursing

Universitas Airlangga

# OPENING SPEECH

## UNIVERSITAS AIRLANGGA RECTOR

*Assalamu'alaikum wa-rahmatullahi wa-barakatuh.*

May the peace, mercy and blessings of Allah be upon you.

*Alhamdulillah!* Praise be to Allah, the Almighty which gives us the opportunity to gather here in “THE 7<sup>TH</sup> INTERNATIONAL NURSING CONFERENCE“. Let us also send *shalawat* and *salam* to our Prophet Muhammad SAW (Praise Be Upon Him): *Allaahumma shalli 'alaa Muhammad wa 'alaa aali Muhammad.* May Allah give mercy and blessings upon Him.

Ladies and Gentlemen,

“Everything changes and only the change itself remain unchanged,” that is some words of wisdom reminding us to the absolute truth that there is no such thing in this world can hold back the tide of change.

Nursing Education, as a professional field, inevitably has to improve along with the changes. And if it is possible, it should always be vigilant to anticipate a period of change ahead.

In this regard, we are already in ‘THE FREE TRADE AREA’. It is one of those changes and we have to deal with the problems of its implementation. Related to these problems, we expect universal Nursing Education to be able to provide attention to all aspects of public healthcare services, anywhere and in any social classes. Therefore, let us always make efforts to quality improvements, such as in the relationship between nurses and the patients, disease prevention, and patients’ treatments.

Ladies and Gentlemen,

Higher education on Nursing has its strategic roles to achieve excellent public healthcare services. Therefore, its education format must be flexible, able to adapt and anticipate any influences such as from boundless improvements of technology, economy, politics, culture and other aspects of development. At this point, joint-researches or joint-programs, seminars, scientific publications, or any other collaborations should be conducted more frequently by all nursing higher education institutions. These advance steps are necessary to achieve “Healthy Global Communities” sooner.

As a result, let us exploit these changes around us to create a condition where the quality of public healthcare service is so high that it brings happiness to all. Thus, competence’s improvement of all nursing students is indispensable. This improvement, of course, should be synchronized with the changes in all aspects. Let us optimally develop this nursing science by maintaining connections and cooperation with other institutions and finding opportunities for future collaborations with others.

Ladies and Gentlemen,

The organization of this international nursing conference must be appreciated. Firstly, because it is the seventh time of the conference organization. Secondly, the theme of this conference, “THE GLOBAL NURSES CHALLENGES IN THE FREE TRADE ERA”, has a strong sense of urgency and very appropriate at this moment.

Therefore, I would like to express my deepest gratitude to the organizing committee, the nursing education institutions- domestic or international-, all the keynote speakers and other parties which support this splendid conference.

We extend a warm welcome to all delegates and those who have travelled from foreign parts. We hope that your attendance will be rewarded academically, that you will make new friends and that you will be fulfilled through the conference activities and the artistic delights of Surabaya.

Ladies and Gentlemen,

Merely to expect Allah gracious blessings, I hereby officially open this "SEVENTH INTERNATIONAL NURSING CONFERENCE" by saying grace: "*Bismillahirrahmanirrahim*". May the objectives of this organization fulfilled and the conference be a success. Therefore let us again say: *Alhamdulillah!* Praise be to Allah.

*Wassalamu'alaikum wa-rahmatullahi wa-barakatuh.*

## ABSTRACT

**Introduction.** Taking care dementia was stressful for both physical and emotional. The stress and burden influenced the caregiver's quality of life. Consequently, emotional and behavior changes shown by the caregiver which is called coping mechanism appeared. The objective of the study is to identify a caregiver's coping experiences on taking care the dementia elderly in nursing home.

**Method.** This study used qualitative research design with phenomenology approach. The sampling technique used purposive sampling. There were ten participants that consisted of seven caregiver's and three members of the nursing home management used. This study used interview, processing and the analysis used Collaizi method.

**Result.** The study result identified fifteen themes, first it was dementia concept. The ways of taking care the dementia comprised the basic need, objective, method and social support. The obstacles which the caregivers felt were demand and burdens. The ways of handling obstacles were modified ways of care, coping mechanism and the supports sources. The caregiver's hope in the comprised the structure of dementia, quality of life the elderly, health services and the caregiver's welfare. **Conclusion.** Caregiver's coping were influenced by the caregiver's understanding about dementia, the way for caring them, the obstacles, problem solving and caregivers hope. The result suggests the need of support from other caregiver, nursing home members, caregiver's family, community health centers, regional hospital, social department, and other organizations in dementia care. Ethnography study use uncertainty in illness model to explore caregiver coping experiences need to conduct for future study.
